LITTLE PREACHMENT.

'Tis a touch of nature makes the whole world kin,
'Tis the touch of grafters takes the whole world's skin,
'Tis a touch of humor makes the whole world grin,
And the high food prices that keep the whole world thin.

CITY OFFICERS TO BE ELECTED SOON.

The present officers of the city administration, who are elected by the Council, are sounding out the newly elected members of that body to see what chance they stand for re-election to their offices. Some of the present officers have given extremely good service to the general public and a grave mistake will be made if they are not elected again.

EPWORTH LEAGUE SOCIAL.

The Epworth League of the Third Street M. E. church will give a social this evening from 7 to 10 o'clock to all its members, friends and every one who has signed the invitation cards to the Win My Chum week services. A short business session will precede the social session. No charge for admission; no collection. Just every one come and enjoy a good social.

A GREAT REDUCTION

In going over our stock we find that we are OVERLOADED, and have decided to REDUCE STOCK, and it goes at cost.
This space will not permit us to list it all. One great bargain is 100,000 feet of an EXCELLENT GRADE OF OAK SIDING. This goes at \$2 PER HUNDRED. All other yard stock greatly reduced.
Don't miss this opportunity to get what you want in lumber and building material at the lowest prices ever known in Maysville. Terms at this reduced price are CASH.

How To Avoid The Motor Car That Bags At the Knees

The automobile is curiously like the human body—an assembling of independent parts.

The man-machine is made up of muscle and bone, nerve and blood, water and fat, waste matter and brains.

As far as locomotion is concerned, neither machine is any stronger than its weakest link.

Mark the badly co-ordinated man. He looks O. K., but when there are stairs to climb or pace to be forced, he puffs and pants, and one concludes that his ruddy color came from a recent facial massage; that his bellows need mending, that his muscles aren't; that his "strength" is mere scenery and that his sound appearance is mostly tailor made.

Haven't you seen automobiles just like that, look "pretty" but won't take you from Here to There and Back?

The "Wonder Car" that the Square Deal Man sells won't 'bag at the knees,' and he can prove by the testimony of delighted owners that it will take you There and Back, not once, but many times, and that it is the lowest "After Cost" car on the market today. If you are a prospective car owner, phone us and we will be glad to take you for a trial spin in the Maxwell "25."

MAJORITY IS 1,400

Says Galvin—Republican Committee Asserts It Has Figures To Prove a Safe Majority

(Special To Lexington Leader.)

Louisville, Ky., November 4, 2:30 p. m.—M. L. Galvin, chairman of the Republican State campaign committee, this afternoon gave to the Louisville evening papers a statement of his returns by counties which give Morrow a majority of 1,400.

Mr. Galvin, in his statement, said: "To the People of Kentucky: The Republicans won the election in Kentucky last Tuesday and we have the returns of the election on that day from every county in the State and herewith submit by counties the pluralities of Morrow and Stanley which show a total plurality for Morrow of 1,400."

"These figures have been verified and are correct, and they can not be changed except by fraud and stealing. We have certificates showing these figures, signed by the precinct election officers. The people of Kentucky are tired of fraud and chicanery in elections, and will not tolerate it longer and will insist on Morrow being given the certificate of election as shown by the figures. If the Democrats had permitted the election to have been conducted fairly and honestly, Morrow's plurality would have exceeded 10,000."

"I will give \$1,000 reward for the arrest and conviction, or for information leading to the arrest and conviction of any one guilty of any election frauds or guilty of attempts to interfere with the correct counting and certification of the vote as cast by the people."

"MAURICE L. GALVIN, Chairman of Republican Campaign Committee."

OFFICIAL COUNT ONLY WILL SETTLE DISPUTE OVER KENTUCKY ELECTIONS.

(Associated Press.)

Louisville, Ky., November 4.—With both Democrats and Republicans obstinately holding to previous claims of success in Tuesday's election, it was apparent tonight that neither side will be satisfied until after the official count has decided the race between former Congressman Augustus O. Stanley, of Henderson, Democrat, and Edwin P. Morrow, of Somerset, Republican, for Governor of Kentucky.

An unofficial tabulation of what was claimed to be the vote in every county of the State at Democratic headquarters gave Stanley a lead of 7,562 votes.

At Republican headquarters figures upon which their claims of success were based were not given out, but it was asserted Mr. Morrow had carried the State by a substantial but close vote. In the contest for all other State offices the balloting just about paralleled that for the ticket ahead, according to the unofficial returns.

It is decided that Republicans gained eleven seats in the General Assembly, which body, however, remains overwhelmingly Democratic. Two constitutional amendments also carried.

HOW THE DEMOCRATS CLAIM VICTORY.

The Louisville Evening Post, in its late edition Thursday night, gives a tabulated statement of the vote for Stanley and Morrow, in which it shows Stanley elected by a majority of 2,981 votes.

In this statement it gives Stanley's majority in Mason county as 275. The official count shows Stanley to have carried this county by 129 votes, a difference of 146 votes in favor of Morrow.

In Lewis county it gives Morrow's majority as 1,100, while Morrow carried Lewis by 1,229 votes, a difference of 129 votes in favor of Morrow. In these two counties alone there is a difference of 275 votes. If this ratio is kept up all over the State, Morrow should be an easy winner over Stanley.

While it will take the official count to give the majority, The Ledger now believes Morrow has carried Kentucky by about 1,400 majority over Stanley.

SOME MIX-UP.

The election of the members for the School Board Tuesday is about the most complicated affair ever staged in an election in this city. The voters made such a muddle of the election that there is strong talk of another election being held. The condition of the ballot books was so bad that the election commissioners could not make heads or tails of the outcome of the

HALL STRODE

Believes in a Chamber of Commerce—What He Says About the Movement.

Mr. Hall Strode, who has long been identified with the interests of Maysville, in speaking of the movement for a strong, well financed Chamber of Commerce, said:

"It is gratifying, indeed, to note the enthusiasm with which the new Chamber of Commerce proposition is being received. The benefits to the city which will come as a result of concerted action are beyond computation. Each individual in the city will feel the benefit as time goes on, for the activities of that body will be so far-reaching that it will have an influence upon the affairs of every one. In a larger sense, the city as a whole will benefit through having the means to give ready expression to the will of the public. The Chamber of Commerce and the public will be co-ordinate. The Chamber is to be the spokesman for the city. How often have questions arisen when positive knowledge of the views of the public would be valued highly by some one who was trying, according to his own best judgment to serve the interests of the city, only to find, when too late, that he had misjudged his public through mistaking noise for substance."

"The day when a man could live into himself is passed. There was a time when so-called best citizens looked down upon every effort to get up a public movement. But it is not so today. The man who stands highest in the community—be he who is esteemed the best citizen—is he who joins hands with his fellows and tries to push forward the interests of his town. The most progressive cities today are made so by concerted effort on the part of many. Each man has some exclusive talent—some way of doing something just a little better than anybody else. And the cities where each puts that talent into the organized attempt to build up those where growth waxes great."

"Locally, the logical body to attend to the civic uplift is the Chamber of Commerce, which is now building with the aid of trained men. At least, the citizens owe it to Maysville to look into what is being done and if they find it indicative of definite results, should encourage it in the ways asked."

I. M. Lane, the real estate dealer, sold for the Mason Lumber Company, three cottages in Eastland to W. T. Berry.

Mr. C. B. Wiles, of Paris, was a business visitor in this city Thursday.

PROPERTY CHANGES HANDS

Big Real Estate Deal Consummated—Two Beautiful Residences Change Hands.

Thursday afternoon one of the largest real estate deals of the year was completed, in which the desirable home of Mr. Thomas Malone, of the county, became the property of Mr. H. O. Gray, of this city. The Malone property is situated on the north side of Fourth street, three doors west of Market street, and is one of the most desirable pieces of property in the city, having all modern improvements.

For the Malone property Mr. Gray gave in exchange his beautiful suburban home, located on the Fleming pike just outside the city limits. This residence, which was formerly owned by Mr. Dan Perrine, and at the time of its erection was considered the most desirable home in the county. With the house and lot also goes five acres of land, much of which is desirable building lots and will no doubt be auctioned off in a short time.

Mr. Gray will move into his newly acquired property Monday and Mr. Malone will take possession of Mr. Gray's former home in a short time.

SQUIRE BAUER'S COURT.

GETTING CALAMITY FAT.

Funny, isn't it?—but it's true.
This country is becoming calamity fat.
When the European war broke out the United States was in the throes of financial and commercial depression. The dollar was becoming scarcer and harder to find and harder to keep.
All Europe seemed in a conspiracy to flood our markets with foreign made goods at prices below the point at which they can be manufactured in Europe.

Factories were beginning to close, construction work diminished, bankers became over conservative, men and women were losing their employment, people with money commenced to withdraw it from circulation and hoard it up, and then—
THE WAR!

Hard times ensued for awhile, but soon commenced to subside.

With half the world in a wild and savage orgy of blood America found little time to think of her internal troubles.

The mind of all humanity was focussed upon the appalling destruction of life and property abroad, upon the crucifixion of civilization, and the shattering of the hopes of universal peace.

The American toboggan slide was brought to an abrupt halt.

The markets of the belligerent countries were opened up to us, and insistent calls were made for the goods that they could no longer make.

Then the wall came from other and neutral countries and every where the cry was, "We want goods!"

The tide turned—the toboggan was kicked into the discard, and the American mind turned to the more profitable subject of supply and demand.

The war is the greatest calamity of the world yet it is flooding America with untold opportunities.

It is destroying the commerce on half of the peoples of the earth, and yet on the crest of the blood stained waves of disaster America rides to greater wealth and financial and commercial power.

The fat of calamity comes to us!

THE CALL.

The call for a Chamber of Commerce for this city is essentially a call for community loyalty. It is not only a call to the citizenship as a whole; but the individual citizen. It is a call to you.

No one man is big enough to make Maysville the city it should be, although there are some men in a position to contribute more to that end than others. No isolated group of citizens is strong enough to accomplish this feat, although any group may do much in that direction. To achieve the goal will require every live citizen in the community.

It has been said that natural advantages never yet made a city. Possibly Maysville furnishes an example of truth, for Maysville is hardly a city, but it is a place where progress should be made by the people who live in it.

It takes natural advantages plus natural builders to make great cities. A natural builder is one who has faith in his city, who will devote a part of his time and talent and energy to its interests, and who will support any proper movement for its material advancement. In short, he is a public-spirited citizen.

Maysville's Chamber of Commerce should become a power for progress in the community. It will become such a power if the people of the city choose to make it so. There is plenty to do, and those who may give attention to this cause will find an excuse for idleness.

Maysville needs and has needed team work on part of its leaders. All of them are undoubtedly leaders in the strict sense of the word—men to believe in the city, who talk its advantages and work for its upbuilding. They all want to see Maysville make the best of its opportunities. But

co-ordinate effort seem to have been somewhat lacking. The Chamber of Commerce is seeking to build up this necessary adjunct, and loyalty to the community should point out the way to the city's business and professional men.

Let the Chamber of Commerce reflect the Maysville spirit, which is progressive. The period of watchful waiting in our municipal and commercial life has passed. The call to action has been sounded. Therefore, awake and come to the front.

A WORLD OF GRUNTERS.

The world today is an aggregation of grunTERS. From youth to old age life is just one big grunt after another.

In infancy we grunt from the colic, and in maturity we grunt from over-eating or "bolting" our food, with its consequent indigestion, or from the pangs of hunger.

If luck comes our way we grunt because there is not more luck to double our holdings, while if it passes us by we grunt at the injustice of fate.

If our family is in the swim of society we grunt when we pay the bills, and if they are not there we grunt because they are discriminated against.

If we hold public office we grunt when our constituents insist upon our living up to our pledges while if we are defeated at the polls we grunt because "the fools elected that maverick over the way."

If the city dads vote funds for local improvements we grunt because it was not in accordance with our desires, while if they heed our advice we grunt because they were too stingy.

We grunt at the school teachers because they insist upon obedience to the rules of the school in their efforts to instill a little knowledge into the heads of our offspring, while if they fail we grunt because they have not developed an educational wonder from a brain that is below par.

We grunt at the preacher when he speaks out the truth, and we grunt at him if he don't.

We grunt at the merchant, and the doctor, and our beasts of burden, and even the dog and the cat get a grunt and a kick.

Yes, this world is one great aggregation of grunTERS, and a few even are in our own midst.

But let us hope there are no grunTERS in paradise.

SAFETY, BUT NOT MILITARISM.

A wave of patriotic fever is spreading over this country as a result of the exposures made in the public press as regards our national weakness in matters of defense.

No sane American citizen will want to see his country exposed to attack from some powerful foreign country. Today such an attack could only result in disaster to us, because of our utter lack of the means of self-defense.

Congress should take prompt measures to insure our immunity from attack from abroad, but it should be done in such a manner as not to impose the burdens of militarism upon the country. The details should be carefully worked out by experts in that line, instead of by some politician who has one eye upon the national defense and the other upon the votes in his home district.

From a purely economic standpoint, it is cheaper by far to take measures to prevent a war than it is to fight one after it ensues.

Tuesday's election was about as quiet and honest as was ever held in Mason county, although the tension was high.

Boost for the Commercial Club. It is a worthy cause.

Push This Town Along

What this town needs is a good strong push to the front—a push with everybody doing the pushing, and every push pregnant with results.

But how can such be accomplished?

Easy enough, brother.

There is no such thing as "can't." When you really want to do a thing—provided, of course, you are a practical man and not dreaming of wild impossibilities.

But a steady and healthy forward movement for your town is not only possible, but is easy of accomplishment WHEN THE PEOPLE GET TOGETHER AND WORK TOGETHER.

If left for one or two men to do it, it will not be done, and the town will stagger along in the same old rut for years to come.

But if every citizen will just realize that advancement and improvement mean more money for him and will go to work with his neighbors to make that advancement and improvement a reality, IT WILL BE DONE AND YOU WILL GET OUT OF THE RUT AND ON TO THE HIGH GROUND OF INCREASED PROSPERITY.

You need a civic organization composed of something besides dry bones—an organization with life in it and red blood in its members—an organization that will do something besides smoke cigars and swap jokes—one that will get right down to brass tacks AND DO SOMETHING AND KEEP ON DOING MORE SOMETHINGS.

People who have been emulating the male and pulling in the wrong direction should wake up for once in their lives and compel themselves to realize that property in or adjacent to a PROSPEROUS and GROWING town is far more valuable than property in a DEAD community.

Throw off that wild and frantic fear of taxation and remember that when a few cents are added to your taxes the value of your holdings is increased by many dollars.

Try to inhibit the idea that this is an age of PROGRESS and ACCOMPLISHMENT and BIG THINGS.

Keep in mind the fact that the LOYAL CITIZEN looks a few inches beyond his own pocketbook of today and considers the welfare of the town.

Definition of the Beau.

A beau is one who arranges his curled locks gracefully, who ever smells of helms and cinnamon, who hums the songs of the Nile and Cadiz, who throws his sleek arms into various attitudes, who idles away the whole day among the chairs of the ladies, who is ever whispering in some one's ear, who reads little billets-doux from this quarter and that, and writes them in return; who avoids ruffling his dress by contact with his neighbor's sleeve, who knows with whom everybody is in love; who flutters from feast to feast; who can recount exactly the pedigree of Hippobos. What do you tell me, is this a beau, Codins? Then a beau, Codins, is a very trifling thing.

A balloon carrying recording instruments sent up by Italian scientists, reached an altitude of twenty-three miles, and found the lowest temperature, 76 degrees below zero, twelve miles up.

SUGGESTION TO WOMEN

Who Are "Just Ready To Drop."

When you are "just ready to drop," when you feel so weak that you can hardly drag yourself about—and because you have not slept well, you get up as tired-out next morning as when you went to bed, you need help. You can get it just as Mrs. Maxwell did. She says:

"I keep house for my little family of three, and became completely run-down. I was weak, nervous and could not sleep; finally I was unable to do my house-work. A friend asked me to try Vinol. I did so and improved rapidly. It toned up my system, I regained my strength, am no longer nervous, sleep well, and do all my house-work." Mrs. J. C. Maxwell, Montgomery, Ala.

There is no secret about Vinol. It gives its success to the medicinal extracts of fresh cod liver, tonic iron and beef peptone, the oldest and most famous body-building and strength-giving tonic.

So many letters like the above are continually coming to our attention, that we freely offer to return the money paid for Vinol in every case where it fails to give satisfaction. Peccor Drug Company, Drug Maysville, Ky.

GIRL SHOTS SELF

Allie Laws-Armstrong, 14, Fearful of Reform School Because of Incorrigibility, Takes To End Life.

Allie Laws-Armstrong, 14, is at St Joseph's Hospital, suffering from a pistol shot in the region of the left breast. At the hospital this morning it was stated that she had spent a good night, but it was too soon to anticipate the effects of the injury.

The little girl had been living at the home of Fred R. Cramer on the Richmond road, having been apprenticed to Mrs. Cramer by the Kentucky Orphan's Home, Louisville. She was sent to school and the efforts were made to make her contented, but what was regarded as insubordination reached a degree recently that Mrs. Cramer advised G. L. Schott, manager of the orphanage, that she could not keep her longer.

Yesterday the little girl received a letter from Mr. Schott in which he remonstrated with her, closing with the statement that if she was incorrigible, the reform school was the only place for her. "I'll never go there," the girl is alleged to have said before going upstairs.

A few minutes later a shot was heard and she was found on the floor of her room with the wound in her chest and a revolver by her side. A doctor was summoned and she was removed to the hospital. The pistol which was one belonging to Mr. Cramer, which was kept on top of a safe in the kitchen. It is the opinion of the family that she secured this on her way upstairs.

In spite of the fact that the experience had not proved satisfactory, the family was much attached to the girl and they were much distressed over the incident. When she was sent to them her name was given as Laws. When she was put in school, however, she gave the name of Armstrong, explaining that this was her father's name, and that her mother had taken back her maiden name of Laws after a divorce. The location of any kinspeople she may have is not known here.—Lexington Leader.

QUEER THINGS ABOUT PAIN

Pain sometimes behaves in a curious fashion. There was a soldier in London, after the Boer war, who complained of excruciating neuralgic pains in his right foot. This very much amused his friends, for he had lost his right leg.

The explanation was that the pain happened to be in the trunk of those nerves, which had sent branches to the foot.

Sometimes a patient comes to a doctor complaining of pain in the knee, and he is greatly surprised when the doctor tells him that the site of the affection is not the knee, but the hip. We are all familiar with the pain under the shoulder blade which comes from an afflicted liver.

The stomach, too, can produce pain in many parts of the body. A disordered stomach will give us pain as far away as the head, and when one gets a cramp in his toe, it is often due to acidity of the stomach. Swallow a pinch of soda and the cramp will disappear.

An aching tooth will produce neuralgic pains in the face, and very often a violent pain at the back of the head is due to deranged kidneys, which themselves may suffer no pain at the time.

If some of the men who are howling about the scarcity of money would get busy long enough to annex some collateral, they would find that the marmosa exists. It merely refuses to respond to the wall of the fellow who sits on a stump all day and spits tobacco juice at the tumblebugs.

A Missouri woman has won a prize at San Francisco for the most beautiful profile, but her homage is reserved for the one who makes the most perfect pumpkin pie.

A theory has been advanced by a French scientist that electric currents can be made to take the place of food in sustaining life to a considerable degree.

MRS. THOMSON TELLS WOMEN

How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I am just 52 years of age and during Change of Life I suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pains were so intense both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound to me and I tried it at once and found much relief. After that I had no pains at all and could do my housework and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use my letter in any way."—Mrs. THOMSON, 649 W. Russell St., Philadelphia, Pa.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Experiments by scientists show that fruits breathe and that cold storage delays their ripening by causing them to breathe more slowly than naturally.

SPECIALISTS

We are specialists in glasses. Why pay \$10 to have your eyes examined for glasses when the man who makes the examination doesn't know enough about glasses to make them? If he can't understand a single lens, what do you expect him to know about a complete refracting system like the eye? Better see Simpson about your glasses and have them made right. Your family physician can give you all the medicine you need. If an operation is necessary he will tell you who is competent to do it.

Simpson and the family physician make a strident combination when it comes to eye troubles.

Every Man, Woman and Child Should See This. We Give Two Shows--3:30 and 8 P. M. Reserved Seats 25c.

WASHINGTON THEATER

COMING Jesse L. Lasky Presents Ina Claire and Carlyle Blackwell

FRIDAY NIGHT, OCTOBER 5

Famous Players Co. Admission 5c, 10c.

Washington Theater

Many People In This Town never really enjoyed a meal until we advised them to take a **Rexall Dyspepsia Tablet** before and after each meal. Sold only by us—25c a box. **Chenoweth Drug Co., Inc.**

The Indian with his pipe, of peace has long since passed away; but the Irishman with his piece of pipe will live for many a day.

The KITCHEN CABINET

The best quality of tea leaves must have creases like the leather boot of the Tartar horseman, curls like the dewlap of a mitchy bullock, unfold like a mist rising out of a ravine, gleam like a lake touched by a zephyr, and be wet and soft like the earth newly swept by rain. — *Lowell, a Japanese Poet.*

TEA MAKING AN ART.

Every woman longs for the dainty appointments of a pretty tea table, but do not wait to realize these longings, but serve tea to your friends with the equipment at hand. A sewing table, lunch cloth, tea tray, teapot and a few pretty cups will be sufficient. The tea wagon is, of course, a wonderful assistance. On this matter of placed the small cakes, creamer and sugar bowl, teaspoons and cups and saucers. Cups may be had that are artistic and shapely from ten cents to as many dollars, but the tea tastes as well from the ten-cent one and if one is broken, your heart is not. Tea is served at four o'clock so that it does not interfere with the six o'clock dinner and is not a meal in any sense.

The correct way of preparing tea is to take the freshly drawn water at the first boil, scald the teapot, then add tea a teaspoonful for each person and one for the pot; cover with the water, then let stand five minutes, add enough water to serve, allow it to stand a minute then pour.

If you desire to make the tea with a tea ball it may then be served of required strength to suit the individual taste. A pretty pitcher of hot water is another requisite, as well as a bowl to empty the tea for a fresh cup. Tea served in a moderate quantity, not too strong, is a fatigue remover as well as a nerve soother. Serve cream rather than milk as it makes a great difference in the flavor. Those who enjoy Russian tea with the lemon will take a clove or two. A pretty way to add flavor as well as sugar is to rub the cubes of sugar over orange or lemon rinds to absorb the volatile oils.

A very pretty entertainment for your guests, when entertaining at a simple tea and a group of congenial friends are gathered round, is to have fortunes read from the tea cups. There are professionals as well as amateurs who do this in a very entertaining way. Tea for this entertainment should be unstrained or a pinch dropped in each cup as it is served.

Nellie Maxwell

ROPE FOR ALPINE CLIMBERS

It is of Special Manufacture and Combines Strength, Flexibility and Lightness.

The rope used by Alpine climbers is of special manufacture, combining as far as possible the differing qualities of strength, flexibility and lightness. Three qualities are in general use, being made from Sisal, Italian and Manila. The latter, however, are occasionally, when cost is not considered, of silk. The latter, though very light and strong, is not so durable as the others. That which finds most favor among British mountaineers is known as Buckingham's Alpine rope. It is made of the best Manila hemp. In the year 1864, Mr. McLeish recalls, a committee of the Alpine club made tests upon a number of ropes suitable for mountaineering. Of the two that were approved one was made of Italian hemp and the other of Manila. They both had a breaking strain of two tons and sustained the weight of a twelve stone man after falling from a height of ten feet. Non-mountaineers have sometimes considered this insufficient, but it is highly problematical whether the human anatomy could survive the sudden compression of a thin rope arising from any greater fall.—*Fry's Magazine.*

Tallest Tree in the World. The tallest tree in the world is the Australian eucalyptus, reaching a total altitude of 480 feet. The highest are the mammoth trees of California, some of which are 276 to 376 feet in height and 108 feet in circumference at the base. From measurements of the rings it is believed that some of these trees are from 2,000 to 2,500 years old. The oldest tree in the world is said to be on the island of Kos, off the coast of Asia Minor. It is several thousand years old, but just how many no one has dared to say. The tree is carefully preserved by a wall of masonry around it, and the trunk is 30 feet in circumference.

Happy is the woman who is pleased including herself.

ITEMS FROM ALL AROUND

Flock of Wild Geese.

A large flock of wild geese passed over the city Monday evening at 6:30 o'clock. The leader and his lieutenants were directing the movement of the flock with their usual honk, and the noise made by them indicated that they were flying very low and were going East.

Good Bid For Tobacco.

R. O. Chambers, of Robertson county, was in this territory last week and made an offer of 12½ cents the pound for the crop of tobacco of T. L. Jones, who resides on the Maysville pike. The price was refused, however. This is the first offer for this year's crop, that is, the first that has come to the hearing of the Advocate. It sounds pretty good.

Kicked By a Mule.

The 7-year-old son of Gay Wilson, of Mt. Sterling, a former resident of this city, was kicked in the head late Sunday afternoon by a mule and his skull was fractured. It is reported that the little boy is in a very serious condition and an operation was performed shortly after the accident in the hope of saving his life. Mr. Wilson is the proprietor of a grocery and meat market in that city.

Ferryboat Robbed.

Last Thursday night the till on the ferryboat Trimble was "tapped" and relieved of about \$12 in cold cash by the midnight marauders. Captain Hughes left his wampum in his little private office, the same being placed under two locks, but this was no barrier to the fellow in search of the filthy lucre. Fifty dollars reward is offered for the arrest of the man, who made a clean get-away with the goods, but as yet there is no clue.

Remarkable Knife.

On Saturday C. R. Russell, of Washington county, who with his family had come to Harrodsburg to lay in his winter supplies, showed us one of the most wonderful knives we have ever seen, and which was plowed up on the James Cull farm in that county. The knife had a bone handle which was three and a half inches wide, and the blade was two and three-quarter inches long and one and three-quarter inches wide. The handle also contained a smaller blade. On the handle was a groove which had contained a plate and upon which no doubt the name of the maker and date on which the odd and wonderful article was made had been engraved. The handle was tipped with brass in a most thoroughly workmanship manner. The knife was no doubt handmade, and was made at a very early date.

Power of Vegetable Growth.

A tar macadam pavement stretching from the school of gunnery at Shoeburyness (Eng.), to the sea is at present in a state of violent if silent eruption. About a fortnight ago the surface became covered with what may be called "blisters," raised a little above the common level, which attracted much wondering attention. From each of these, in a few days, a series of cracks appeared, extending themselves in rays from a center. Finally came up a broad, short, shoot, looking extremely well pleased with itself and its work, which proved to be so old and well known a friend as the bubble. At this moment there were hundreds of those bold intruders showing defiantly through the pavement, affording a most interesting illustration of the power of vegetable growth.

Thumbs In Social Customs.

Few persons realize how important a role the thumb has played in the social customs of the people. Frisking records that among certain classes of people in Scotland the final settlement of a bargain was always signified by the flexing and joining of thumbs. Selden says that kissing the thumb was a characteristic of servility. The clergy, the rich and the great were in receipt of this honor from tradesmen. From remotest times the practice of flexing the thumb has been regarded as a solemn pledge or promise, existing among the Goths, the Iberians and the Moors, and it may also be traced through successive periods down to the present time.

Sweep the storeroom at least once a month, and if there is a window in it cover a window screen with two thick pieces of cheesecloth, and keep window open all the time.

Sweden and Norway together manufacture more carboys of calcium than any other single nation, but use very little of it, exporting almost the entire production.

Boyle Is Fortunate.

Boyle is a fortunate old county. For years the number of her paupers has not exceeded four and, finding that it was not sufficient to warrant a continuance of keeping it, the Fiscal Court has sold the almshouse and will instead of providing them a home. We will warrant that the county has fewer paupers than any in the State.

Big Potato Crop.

Colonel Bev. Dorsey, the "Beech Ridge philosopher" and agriculturist, claims to have a good chance on the honors as champion potato raiser in Bourbon. On a quarter of an acre on his ranch near Hutchinson, Colonel Dorsey recently gathered a crop of over sixty bushels of fine potatoes as ever came out of the ground. Colonel Dorsey is naturally elated over his success.

New Corn Looks Good.

Sappy, but looking good and weighing heavy, the first of the new corn has begun to arrive on the local wagon market.

Some local dealers refuse to purchase the new corn, taking the standard number of pounds to the bushel, claiming that the sap in the grain will make the measure short. In some instances 80 pounds are demanded to the bushel.

Big Explosion.

A bomb was exploded in Fifth street near the Lexington avenue intersection about 10 o'clock Saturday night. The charge lay loose with a loud and terrifying report. A portion of the bomb struck the residence of J. D. Johnson, who operates the corner grocery, and tore a hole through the weatherboarding and plastering and narrowly missing an occupant of a room. Another section of the iron tore down two telephone wires to the coal house of Mr. Collings. From the best information at hand, the bomb was a home-made one, being composed of an iron pipe which was charged with dynamite and a cap. It is supposed that the bomb was prepared and exploded by those who were pulling off Halloween pranks, although some of the citizens think otherwise. Citizens generally are much aroused over the explosion and the police are carefully investigating. It is stated that some hot clues have been established. The offense is a very serious one. Very fortunately the explosion occurred at a late hour when no travelers were on the street. Had it taken place earlier in the night it is very likely that several people would have been killed or injured.

Filling the House.

The theatrical man just in off the road was recounting to the New York manager his qualifications for a box office post.

"I don't see that you are any better than a dozen other men I can take my pick from," said the manager. "You say you can sell tickets. So can they. Nobody can sell tickets if people don't come to buy."

Hints to Lovelorn Gents.

If she makes a practice of eating onions for supper every time you call, it is a sign that she is indifferent toward your suit.

Teeth are like verbs—regular, irregular and defective.

INVENTS POCKET WIRELESS

New York Man Has Apparatus That Sends and Receives Messages at Distance of 18 Miles.

Dr. H. Harrington Cox of Bedford Hills, N. Y., has invented a compact and efficient wireless receiving and sending apparatus which may be strapped about the waist and safely hidden in the folds of a cloak so that it would be invisible to an unsuspecting person. The sending apparatus consists of a box in which are five dry cells and a vibrator. The electric pulsations are started by tapping a telegraph key, and the current which the doctor says if modified with a hidden transformer of his invention, sends out its messages in waves long and short. The equivalent to a half watt or one-eighth as much as is required for the ordinary electric light bulb is the amount of electricity necessary. From the box projects a wire. In warfare use this wire is carried down the leg of the soldier, and

connected with a metal plate or spur in the shoe. The receiving instrument consists of a drum about which is a coil of wires. On top of this is a very fine deflector. It has a pair of ear pieces such as are worn by telephone operators. Doctor Cox can send and receive messages by his instrument over a distance of 18 miles. The picture shows Doctor Cox with his cane (or receiver) raised for a message.

POISON GAS TO KILL PESTS

Prairie Dogs Succumb Readily to Methods Copied From European War.

San Angelo, Tex.—Killing prairie dogs with gas is the newest and most successful method of warfare against the western pests, according to reports from the infested country near here.

Chlorine gas from a large automobile generator is forced into the holes through a hose. The hole is then quickly covered and the occupant, be it prairie dog, ground squirrel or snake, immediately dies.

GETS DIVORCE LEST SHE DIE

Kansas City Woman Facing Operation Feared Husband Would Get Her Money.

Kansas City, Mo.—The uncertainty of the result of a surgical operation was the plea made by Mrs. Grace Eyth for divorce from Adolph J. Eyth, a salesman.

SEEK SQUAWS AS BRIDES

Mexicans Make Love to Indian Maidens Who Own Land in State of Wisconsin.

Ashland, Wis.—C. E. Redfield of Santa Clara, Cal., allotting agent for the United States government, here to allot 35,000 acres on the Bad River reservation to 545 members of the tribe, brought from California a bundle of applications from Mexico for Chippewa brides.

But he thinks the Mexicans are seeking the squaws more for the sake of the land than any personal endearments.

IS 107; SHE WANTS TO VOTE

New York Centenarian Hopes to Live Long Enough to Exercise the Franchise.

Glens Falls, N. Y.—"Of course, I haven't many years to live, but my one ambition is to live long enough to cast a vote, and I think I will."

A mere man says that women have to admit anything is sour or that it is burned—only browned.

Lawyer Active in Missionary Work.

Robert P. Hargitt, prominent attorney of Cincinnati, is an active worker in the campaign preceding the Laymen's Missionary Convention, to be held November 14 to 17. Mr. Hargitt is a member of the Executive Committee of Laymen which is in charge of the convention arrangements.

MOVEMENT ORGANIZED

In the Chapel of the Fifth Avenue Presbyterian Church, New York.

Cincinnati, O.—The Laymen's Missionary Convention, which will be held in Cincinnati, in Emery Auditorium November 14 to 17, will be one of the most interesting gatherings of the National Laymen's Missionary Movement, which will embrace similar conventions in 75 cities of the United States, and culminate in a national convention in Washington, D. C., in April, 1916.

The movement was organized in the chapel of the Fifth Avenue Presbyterian Church, New York, November 15, 1906. It was a laymen's meeting held in connection with the celebration of the one hundredth anniversary of the American Board of Commissioners for Foreign Missions, the first foreign missionary society in North America.

The great movement to evangelize the world sprang from this small beginning to such an extent that it may well be said to embrace every civilized country on the globe, especially the United States and Canada. From the initial object of creating a larger interest in the work of foreign missions, the movement has grown to take in every activity of Christian life, and is aimed especially at the men and women of the United States.

"If we can bring to this convention the laymen from each church, we will be able to revolutionize the life and the inspiration of this mighty enterprise, and we will be able to make a profound impression on the life of our community," say the leaders of the Cincinnati convention.

NATION-WIDE INTEREST

Is Being Taken in Laymen's Missionary Convention, November 14 to 17.

Cincinnati, O.—Nation-wide interest is being taken in the Laymen's Missionary Convention of Cincinnati, which will be held in Emery Auditorium, that city, November 14 to 17. Especially will the eyes of churchmen of Boston be turned to the Queen City during and previous to that time. It happens that a similar convention, part of the National Laymen's Missionary Movement will be held in Boston on the same dates.

Because of this fact those in charge of the two conventions have arranged a friendly contest, in which the respective cities will test their strength in enlisting laymen as delegates to the conventions. Thus, although the two cities are situated at points more than 1,100 miles distant, the contesting workers will be in close touch, each move of one side being closely watched by the other.

Every male church member of the Cincinnati district is eligible to become a delegate and attend the meetings of the convention. This is done by registration. A fee of \$1 is charged for each registration, and the money goes into a fund which will defray the convention expenses. The Cincinnati Chamber of Commerce, always ready to the advantage of every great movement for the betterment of the community, has come forward with an offer of financial assistance for the carrying out of the convention plans. While the convention will not mean any great advantage to the city, as it might be estimated in dollars and cents, its influence on the efficiency of business endeavor and upon the general progress of the city, in a spiritual way, can not be estimated. Leaders of that organization declare.

PURPOSES BEHIND LAYMEN'S CONVENTION.

To enlist MEN in the whole task of the church.
To bring about a larger conception of Christianity.
To give increased efficiency to each worker.
To get a deeper hold on the realities of the Christian faith.
To realize a more accurate view of what the present world-crisis means.
To give and receive suggestions for organizing each church for better service.
To bring about a greater confidence in the ultimate victory of Christianity.

A mere man says the average woman always exaggerates except when talking about her own age.

AID THE KIDNEYS

Maysville Sufferers Should Take No Further Risk.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, lagor—why allow themselves to become chronic invalids, when a tested remedy is offered them? Doan's Kidney Pills have been used in kidney trouble over 50 years, have been tested in thousands of cases. If you have any, even one, of the symptoms of kidney diseases, act now, for gravel, dropsy or Bright's disease may set in and make neglect dangerous. Can Maysville residents demand more convincing proof than the following:

A. Sorries, locksmith, Aberdeen, O., says: "The action of my kidneys was irregular and the kidney secretions contained sediment. I had backache and when stooping, it was hard for me to straighten. Colds always settled on my kidneys. I used Doan's Kidney Pills and they stopped the trouble and my kidneys became strong."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Sorries had. Foster-Milburn Co., Props., Buffalo, N. Y.

Mother's Chair.

Mother's chair had rocked the whole family. It made a creaking noise as it moved, but there was music in its sound. It was just high enough to allow us children to put our heads into her lap. That was the bank where we deposited all our hurts and worries. Oh, what a chair that was. . . . It was a very wretched chair! In the sick day of children other chairs could not keep awake—it kept easily awake. That chair knew all the old lullabies, and all those wordless songs which mothers sing to their children. Songs in which all pity and compassion and sympathetic influences are combined. That old chair has stopped rocking for a good many years. It may be set up in the loft or garret, but it holds a queenly power yet.—*T. DeWitt Talmage.*

\$60 BEFORE THE WAR: SOLD NOW FOR \$1,550.

London, November 4.—The tremendous increase in the price of dyestuffs due to the war, was indicated when a keg of methylene blue was offered at a sale of lost property at the Midland Hotel. The keg, weighing 150 pounds, was eagerly bid on and fetched \$1,550.

Our Advice Is:

When you feel out of sorts from constipation, let us try **Rexall Orderlies**. They do not relieve you, see a physician, because no other looses readily will. Sold only by us, 10 each.

HYPODERMIC CURE FOR CANCER

FOUND BY KENTUCKY DOCTOR.

Evansville, Ind., November 3.—An announcement that he had discovered a treatment for cancer that has proved successful in an number of cases was made by Dr. C. A. Pope, of Louisville, Ky., at a meeting here today of the Ohio Valley Medical Association.

Dr. Pope stated that "extracts from the proteins of certain vegetables, by hypodermically administered," compose his cure, which is known as "autoly-sin."

Dr. Pope said that even so-called "hopeless cases," had responded to treatment by his method. Before making any claim that he had discovered an absolute cure for the disease, the Louisville physician said he wished to continue his experiments for several months in order to test the treatment thoroughly.

GERMANY ANNOUNCES

Peace Terms To Allies—Belgium and Poland To Be Freed—Enemies To Pay Indemnity.

Washington, November 4. "When England begins to talk peace the war in Europe will be near a close."

"Germany looks to England to open the discussion and Germany's terms are already formulated."

An official who has faithfully reflected the views of Ambassador Von Bernstorff since peace talk first began, made this declaration today and set forth Germany's peace conditions as follows:

A heavy indemnity from the allies to pay Germany's war debt.

Retention of Poland, which will be made an autonomous State with a customs alliance; retention of a strip of Courland, and the territory now held by Germany in Russia until a war indemnity is paid.

Restoration of at least a part of Germany's colonial possessions and probably the return of all.

Absolute freedom of the seas.

Germany will give up Belgium, which "she does not care to assimilate."

Evacuation of the Balkans by Russia.

Complete Austro-German control there.

The power to modernize Turkey without interference.

Her Only Terms.

These terms, it was set forth, are the only terms on which Germany will consent to make peace.

Easier terms could have been made a year ago, the official declared, but these terms will be supplemented by harsher ones a year from now.

The empire expects the allies to pay her war bill, he said, and will hold territory now occupied in France and Russia until it is paid.

England, this official pointed out, can now make peace, quit the war and still be "even with the game," harrying men killed and the debt incurred.

DEMOCRATS

To Rule Next General Assembly By Majority of Ninety-one To Forty-seven.

Louisville, Ky., November 3.—Democracy will rule the next General Assembly in the State of Kentucky by a majority of ninety-one to forty-seven.

The next House will be composed of sixty-three Democrats and thirty-seven Republicans. Twenty-eight Democrats and ten Republicans will hold seats in the State Senate.

The Democratic majority is sufficient to swing any question which may come up for decision in the House. The Democrats have twenty-six majority; in the Senate eighteen.

Forty-four Democrats were elected to the Legislature without opposition. Ten Republicans reached the goal by the same route.

Of the fifty-six races run at the polls the Democrats captured twenty-nine, Republicans twenty-seven. In the ten Senatorial races Republicans took six, winning in the Seventh, Eleventh, Thirteenth, Fifteenth, Twentieth and Thirty-fifth Districts.

Democrats were victorious in the Nineteenth, Twenty-fourth, Twenty-fifth and Thirty-seventh.

YOU CAN'T LOSE HIM

Peasee Glascock, Former Ledger Scribe, Now Prosperous Business Man of Augusta, Ga.

The Savannah (Ga.) Morning News says: "Peasee H. Glascock, of Kilmarnock, Fla., a newspaper correspondent, was in this city last night on his way to Augusta, Ga., to assume partnership in the Murphy-Glascock Advertising and News Agency, a new company recently started in that city by William P. Murphy, of Charleston, S. C."

Peasee is the only son of Rural Mail Carrier Paul Glascock, and for some time was a valued reporter on The Ledger, and made many friends by his gentlemanly demeanor and his capabilities were manifest by his splendid news-gathering.

His friends in Maysville join The Ledger in extending congratulations and well wishes to Peasee, and hope his business venture will prove a decided success.

PITTIN' ON CITY AIRS.

(Ripley Bee.)

There should be two additional voting precincts in Ripley and Union townships. With the number of votes cast and the number of different ballots to be voted, makes it difficult for the voters to get their ballots in time. At 9 o'clock the next morning, after the recent election, the clerks and judges were still at work getting the poll books completed.

W'FARLAND-GROSE.

Thursday afternoon County Clerk Owens issued a marriage license to Eliza Gros, aged 22, and Miss Nancy W'Farland, aged 21, both of Fleming county. The couple was married in the office of the clerk by Squire Fred W. Bauer.

MARRIED AT WASHINGTON.

Dr. Mablon Pollock, the popular physician, and Miss Ethel Irvine, of Washington, were quietly married at the M. E. church parsonage by Rev. Ishmael The Ledger joins with a host of friends in congratulations.

Columb John T. Macauley, aged 69, veteran theatrical manager, died at Louisville after nine months' illness from a complication of diseases.

Mrs. Mary Patterson and Miss Elizabeth Owens, of Germantown, were among Maysville shoppers Thursday.

There were seventeen steamboats and four showboats in sight at one time in the mouth of the Great Kanawha river Sunday afternoon.

United States Steamboat Inspectors Peyton and Dameron, of the Cincinnati district, will go to Augusta, Ky., tomorrow to inspect the ferry steamer Whisperm.

There is a fleet of Pittsburgh combine barges at the Point Pleasant dry dock that will be repaired by Smith and will then, it is said, be taken up the Kanawha and loaded with coal.

The new Greene Line steamer Loris Greene is 135 feet long and twenty-six beam. It is equipped with compound McCormick machinery and her new boilers are allowed 220 pounds of steam.

Pittsburg towboat pilots and masters with few exceptions are out of jobs and as it now looks there will be little doing in the way of coal shipments from that port for some time to come. Only very small shipments have been made during the last year.

In the Maysville district the Ohio river will not change much Friday. The gauge at Maysville registered 5.6 and falling. The stages at other points are:

Franklin 9.7, fell 0.1; Greensboro 7.9, stationary; Pittsburg 6.1, rose 0.1; Dam No. 9 6.9, rose 2.8; Wheeling 5.8, fell 1.1; Parkersburg 4.6, fell 2.7; Radford 0.2; Hinton 2.1, fell 0.1; Kanawha Falls 1.9, fell 0.1; Charleston 7.5, rose 0.2; Point Pleasant 6.2, fell 0.2; Huntington 4.4, fell 0.1; Catlettsburg 5.9, rose 0.7; Portsmouth 5.8, fell 0.1.

The combine's towing steamer Transit, which met with a serious accident at Cincinnati several weeks ago, when she ran through herself and made repairs necessary that have cost the Monongahela Coal Company considerable, will soon be back in the trade after having a new engine installed.

The boat was on her way to Cincinnati with a tow of empty barges and was compelled to return to Louisville light after the accident. It is considered quite remarkable that no person was injured at the time of the break.

The American Association of Masters, Mates and Pilots is conducting a referendum among its members on the question of urging Congress at the next session to modify the existing laws fixing thirteen hours as the legal maximum in which pilots may work during a period of twenty-four hours, so that it shall be reduced to a period of eight hours a day or fifty-six hours a week, including seven days in shipping circles it is believed that the members will vote in favor of the proposition and that the next session of Congress will be the scene of a most vigorous fight.

RECEPTION DAY WITH THE NO. 10.

Through the courtesy of the Order of Elks the Nomad Club held an open meeting in their hall on Thursday afternoon from 2 to 4.

The feature of the occasion was a lecture by the Rev. R. L. Bonn on "Pippa Passes," which was the concluding program in the club's study of Browning.

Such a masterpiece of English composition and scholarly ability was the lecture with which they were favored that those in attendance realized that all the art in literary achievement is not to be found upon Chautauqua platforms, but that we may have cultivated genius right here in our midst.

A synopsis of the lecture would convey little idea of the philosophical heights to which it attained or the beauty of expression and the pathos and humor with which it was delivered.

The refreshments, as artistically catered and gracefully served by Misses Ida Ross, Eleanor Wood, Dorothy Metz, Mary Page and Ann Maltby made a happy conclusion to an enjoyable and profitable afternoon.

WILD GESE TAKE CITY BY STORM.

Thursday night about 11 o'clock the residents of this city were awakened by the cries and quacking of a flock of wild geese which had become lost and being attracted by the lights of this city had alighted in our midst.

The square about the courthouse seemed to be the center of attraction and was filled with the wild fowl, several of which were caught by people residing in that neighborhood.

After asking all the geese evidently found their bearings, they rose and flew away in a northern direction almost as suddenly as they came.

IN SERIOUS CONDITION.

(Augusta Chronicle.)

Another one of Augusta's good citizens, H. C. Yates, is in a very serious condition at his home in this city, suffering from a complication of ailments. It will be remembered that Mr. Yates had one of his legs amputated near the ankle three or four years ago, and he has had trouble with that member ever since. He was a gallant Union soldier during the Civil War and has many friends throughout the county who will regret to learn of the serious condition that he is in.

MAYBE HE VOTED FOR JOHN FRANKLIN.

John Franklin, colored, 544 Laurel street, Cincinnati, who was an independent candidate for Council in the Fifteenth Ward, received one vote in the ward; Ward, according to a canvass made by the Republican executives of the board.

IS EAGER TO BE A NU

Miss Helen Namur, a popular leader and one of the prettiest girls in her set, longs for an opportunity to aid the people of King Albert's war-torn country. Since the outbreak of the war she has worked unceasingly in the interests of Belgium, being enrolled in practically all the movements for the aid of the tiny kingdom where her ancestors played a leading part in some of the most important and romantic historical events of the little country. They lived in the vicinity of Namur, where the greatest need of the world was shattered by the 42-centimeter guns of the German army, and many of their descendants resided there until the outbreak of the war.

Miss Namur's parents came to the United States 49 years ago, where she settled in New York, where she was born. Realizing the great need of workers in the stricken country where many of her relatives are fighting in the trenches, she offers to go as a war nurse or as a relief worker to aid the helpless women and children left at home to fight battles at even greater odds than those encountered by the men who held the Germans back until the French were mobilized.

"PAT-PATTER" SOME KISSER

Nieces Say Other Boys Had No Chance With Anti-Osculator in Former Days.

Huntington, W. Va.—Dr. E. W. Grover, president of the Huntington board of health, has met with an unlikely setback in his campaign to do away with kissing and substitute the "pat-pat," in which one gently taps the cheeks of his beloved instead of impressing the old-fashioned kisses on her lips.

His three nieces, Mrs. Murtle Funk, Mrs. Rome Baker, and Mrs. Mary Grover, who live in Los Angeles, have now written:

"When it comes to osculatory pursuits our uncle was a hum-dinger in bygone days. The other boys didn't have a chance with him. He was some kisser."

Doctor Grover has received hundreds of letters protesting against his "pat-pat" system. A Cleveland man termed him "a supernumerary old stick."

HAS MADE 20,000,000 BUNS

Brother Williamford is Baker for University of Notre Dame for Fifteen Years.

South Bend, Ind.—Brother Williamford, who estimates that he has baked approximately 20,000,000 breakfast buns, has just completed his fifteenth year as the head of the bakery of the University of Notre Dame. He has kept careful count of the various eatables he has prepared since he began. The brother's family is about 1,500 while school is in session.

By Brother Williamford's calculations he has mixed 32,850 barrels of flour and made 642,500 five-pound loaves of bread, 16,425,000 cookies and almost 20,000,000 buns for breakfast. Flies for the school are made by the sisters at St. Mary's college.

CATS FOR FOOD IN HUNGARY

Demand Causes Jump in Price Until Maximum is Set by Authorities.

Paris.—The Figaro quotes the Budapest correspondent of the Frankfurter Zeitung as follows:

"The official organ of the central Hungarian slaughter houses states that in the Biharszentes district, where all the Italian residents of Hungary are interned, a great number of cats are killed and dressed daily. The demand has been such that the price of cats rose to a prohibitive figure, hence the local authorities stepped in and fixed the maximum price at three crowns the kilo." (About 25 cents a pound.)

NOTICE TO OUR ADVERTISING PATRONS

All changes for advertisements MUST be in this office by 5 o'clock the day before their insertion, and for Monday's paper must be in by 9 o'clock on Saturday.

SMOKER MEETING

For Chamber of Commerce Tonight—Good Talks To Be Made—Public Invited.

There should be a good attendance at the "smoker" given in the interests of the Chamber of Commerce meeting tonight at City Council Chamber at 7:30 o'clock.

Will Curran will make a short talk on "Co-operation in Community Development," and F. P. Chaffee, of Indianapolis, will explain just how the new Chamber of Commerce is to operate and what it can do for Maysville.

"Smokers," good fellowship and instruction. The aims and objects of the proposed Chamber of Commerce for Maysville explained. No subscriptions asked or received at this meeting.

You are invited—come. Be there if you have the interests of your town at heart. Bring a friend.

AN APPEAL FROM THE CITY MISS.

To the Mothers of Maysville: Won't you help us? You, who are well to do, whose children are well fed and warmly clothed. What do you do with their worn out clothing and outgrown shoes? Have you thought that many a little shoe that is scuffed at the toe or worn in the sole, with a little repairing, do good service for some less fortunate child?

Now that the cold, bleak, winter months are with us, you can hardly realize how often the appeal comes to us from the little lads from the age of 5 to 14 and the little sisters between the ages of 6 to 15 for shoes and clothing.

The shoe problem is one of the hardest to solve. To meet these appeals with new shoes means going deep into our resources, taking money that would pay a week's rent or keep a family in food for several days.

Will you help us? Won't you send us your shoes and clothing your little ones have cast aside? And we will gladly accept all other clothing that is of no further use to you. We can use it all.

Our office is open daily from 8 from 4 p. m. to 6 p. m. to distribute and from 8 a. m. to 10 a. m. and from 6 p. m. to 8 p. m. to distribute articles.

If you will help us in this way, we in turn will help the community, for with the money we save on shoes we can do that much more effective work in real constructive social service work and so decrease the deepest poverty and misery of the city.

Our aim is to give relief as a help to self support and self respect rather than a hindrance; "a ladder to climb upon rather than a crutch to lean upon."

CORA E. PEDDICOORD.

Mrs. Alonzo Kidder left yesterday for a visit to her daughter, Mrs. Kessler, of Newport, Ky., and Mrs. Lamb, of Dayton, Ky.

Mr. J. W. Hanna, of Nepton, was in this city Thursday on business.

Mr. R. M. Caldwell, of Carlisle, was in Maysville Thursday.

MAYSVILLE PRODUCE MARKET

Following are this morning's quotations on country produce, telephoned at 9 o'clock by the E. L. Manchester Produce Company:

Butter 16c
Eggs 25c
Hens 85c
Roosters 5c
